Dear Sandy,

Thank you so much for sharing your knowledge, and expertise regarding deer behavior and deer deterrents in 'How to Deer-Proof Your Garden' for our Gardenscape 2009 Seminars. Your lively way of presenting and great tips was most helpful for those of us who 'garden' with deer! Several who attended were most appreciative to learn the behavior aspect of deer. Understanding deer behavior is a major part of knowing how to discourage them.

It is professionals like you who truly make our seminar days special.

Sincerely,

Megan Meyer
